#### BACKGROUND

This audit is being conducted as part of the Strategic Industry Review into training for the Security industry, under the authority of S35 (2) of the National Vocational Education & Training Regulator Act 2011. ASQA is conducting a number of these audits across Australia.

This Review is being conducted because of concerns raised about the quality of the training and assessment provided by some Registered Training Organisations (RTOs), by coroners, regulators, employers and the industry generally

The findings of the Strategic Industry Review will be published. No names of RTOs will be included in the Review report.

Australian Training Academy has been a Registered Training Organisation offering training exclusively in the security industry since 1997. Australian Training Academy Pty Ltd is part of the Ringwood Group which also owns and operates Total Aussie Security. The benefit to the students completing security courses is that they have access to a real security company in order to complete their course in a properly simulated environment. Some graduates also obtain full and part time work in the security company. The majority of students complete a license course consisting of the full CPP20212 Certificate II in Security Operations and selected units from CPP30411 Certificate III in Security Operations (units depend on which license is required). Australian Training Academy also delivers full CPP30411 Certificate III in Security Operations qualifications primarily to supervisors in a large security company.

Total number of current enrolments in RTO as at audit date:

- 43
